EDUCATION

The University of Texas at Dallas

- B.S. in Data Science | Completed in 3 years

Richardson, Texas

Aug 2023 - May 2026

Relevant coursework: Database Systems, Big Data Management, Data Analysis in R, Statistical Learning, Applied Linear Models, Machine Learning, Business Computer Applications, Macroeconomics

PROFESSIONAL EXPERIENCE

MITEG – Predictive Oncology Research

- *AI/ML Research Analyst (UT Dallas Industry Capstone with MITEG)*

Richardson, Texas

Aug 2025 – Dec 2025

- Led the analytical workstream for a four-person industry capstone, analyzing 1,082 breast cancer samples across 13 biomarker features and developing predictive models to support risk-based decision-making
- Evaluated multiple classification models using Python, SMOTE class balancing, 5-fold cross-validation, grid search, and threshold optimization to reduce false negatives, minimize model error rates, and improve detection accuracy
- Presented model performance, risk tradeoffs, and biomarker insights to company leadership, showing sensitivity improved from 61.7% to 78.7% and AUC reached 0.682

Alliance Ground International

- *Passenger Service Agent*

Irving, Texas

Jun 2024 – Mar 2025

- Managed high-volume passenger operations across ticketing, check-in, baggage, boarding, and gate support for multiple daily departures while maintaining accuracy under strict time constraints
- Coordinated with gate agents, ground handling teams, flight crew, airport vendors, and passengers to verify documentation, resolve time-sensitive issues, complete flight close-out records, and follow compliance procedures

RELEVANT PROJECTS

Financial Reporting, Capital and Variance Analysis Dashboard

- *Goldman Sachs Case Study | Independent Financial Analysis Project*

Jul 2026

- Analyzed Goldman Sachs annual and quarterly filings to evaluate revenue, earnings, expenses, assets, shareholders' equity, risk-weighted assets, CET1 ratios, and business-segment performance
- Built a dynamic Excel financial model and management dashboard to analyze QoQ and YoY variances across capital, balance-sheet, and performance metrics, with automated validation and reconciliation controls
- Reconciled financial data to official SEC filings and developed validation controls for source accuracy, reporting periods, units, duplicate records, balance-sheet integrity, and dashboard outputs

Rainline – AI Irrigation Assistant

- *Project Lead*

Dec 2025 – Mar 2026

- Led development of an irrigation decision assistant that converted crop, soil, irrigation history, and real-time weather inputs into field-specific watering recommendations
- Built Amazon Bedrock explanations to translate technical outputs into recommendations for nontechnical users
- Designed recommendation-history and feedback workflows to identify data-quality issues and improve future outputs; named an AWS 10,000 Aldeas National Semi-Finalist

SKILLS

- **Analytics & Reporting:** SQL, Excel, PivotTables, XLOOKUP/VLOOKUP, SUMIFS, INDEX/MATCH, Tableau
- **Data & Databases:** Python, R, MySQL, Data Validation, Statistical Analysis, Dashboard Development
- **Risk & Controls:** Data Reconciliation, Validation Controls, Risk Analysis, Process Improvement, Compliance Procedures
- **Business & Communication:** PowerPoint, Business Reporting, Executive Presentations, Requirements Gathering, AWS

ADDITIONAL INFORMATION

- **Certifications and Awards:** Goldman Sachs Risk Job Simulation (Forage), AWS 10,000 Aldeas National Semi-Finalist, Microsoft Programming Using Python, Coursera Relational Database & SQL
